Installation Manual for SM CCD USB spectrometers

1. Introduction

This manual contains instructions on how to install the SM32Pro, operation software for Spectral Products' SM200/240/241/520 USB version spectrometers and the USB drivers.

2. Process

(Note) The USB spectrometer does not have to be connected to a computer before installing the SM32Pro software.

2-1. SM32Pro Installation

- (1) Insert the SM32Pro installation CD into the computer CD ROM.
- (2) When prompted, enter the instrument serial number as written on the SM spectrometer and then enter the data acquisition code. The code consists of two letters based on the data acquisition board manufacturer and interface types: The SM32ProForUSB is only for USB board users, so the ending of the serial number has to be always "EU".

(5) Click the "Install" button when you are ready. If you would like to change anything in the process, just click "Back" until the stage required appears. If you click the "Install" button, the selected software package will be installed completely and the link icon to the program will appear on the computer desktop.

2-2. USB Driver installation

NOTE: SP developed two different types of USB boards, one for Sony ILX511 CCD and the other for Toshiba TCD1304 CCD. The Window Installation Wizard will show "SP SM ILX USB..." for the Sony ILX511 USB board and "SP SM TCD USB..." for the Toshiba TCD 1304 USB board.

- (1) After installing the SM32Pro, plug the USB cable to the spectrometer and the computer.
- (2) Windows will open the hardware update wizard. Check "No, not this time" and click "Next".

(3) Click "Next" to install the USB driver

(9) When the USB driver controller installation is finished, click "Finish" button.

3. Run SM32Pro

After all installation process is complete, some computers may ask you to reboot the system. We recommend that you reboot the computer in that case. To run the SM32Pro, double click the "SM32Pro" shortcut icon on the computer desktop. If there was no error during the installation, the program will run properly as below.
